

Below is a list of the plywood that we stock. Most sheets are stocked in 4' x 8' sheets, except the Baltic Birch which is 5' x 5'. We also sell quarter and half sheets of these stock items. A large variety of other species and cores are available on short notice.

Please note that we stock the finest quality of furniture grade plywood with a poplar veneer core. Our plywood is not the same product that you will find at home centers and generally has an inferior core and face. We have tried carrying the lower grades but problems with delamination and veneer issues are not what our customers want.

BEADED BIRCH 1/4	LAUAN 1/8	POPLAR 1/4
